UNEMPLOYED

01.06.03. Verbalising loudly and aggressively over phone in home situation. Distressed and agitated manner all evening. IV + ab's ✓ Othc

2.6.03 - Rested well O' night, IVA/B ✓ Blog

2.6.03 8AM Continue to have purulent drainage from undrained pocket

Plw. Respon - wound completely Dressing change 3 times a day
Patel

2/6/03 NURSING - Cares as per care plan. 1532hrs Dr attended @ 1000hrs. Dr Patel wants sorbasan dressing TDS - discarded same 1/2 AINPC TILSED request BD dressings only. 1/2 talk to Dr in am. IVA's continued. Self caring.
Kleenekn

02-06-03. Current dressing unsuitable due to excessive drainage. Dr opis contacted for discussion. I suggested cavity suction dressing but Dr Patel does not want this so we have settled on a drainage

bag system to try to keep the wound
edges from becoming macerated.
Dress applied 2000 hrs - effective
so far.

Pt agitated, anxious & upset regarding
mental problems - requested Valium.
Same given. Pt downstairs often.

Pt states that he feels as if the Doctors
don't treat him adequately & that his
second injection is not getting better
& will not. I have suggested to him
that he should have a good talk
to his Doctor in the morning regarding
his present care & what he expects
in the future.
