GLOSSARY OF TERMS

Contested Case Hearing: A hearing, held before an administrative law judge, that results when a licensee disputes the Board's stated legal grounds for disciplinary action under the Medical Practice Act. The hearing ultimately results in a final order which resolves the dispute.

Corrective Action Order: An agreement between the Board and a licensee that concludes an investigation into the licensee's conduct. There is no admission or finding of a violation of the Medical Practice Act; therefore these orders are not disciplinary. The orders do impose action the Board and licensee agree are appropriate to remedy the problem that caused the Board to open an investigation.

Disciplinary Action: An action taken under ORS Chapter 677.205. The Board takes disciplinary action in response to a violation of the Medical Practice Act.

Final Order: An order imposed by the Board after a contested case hearing has been held. These orders conclude a Board disciplinary action and typically contain a legal finding of fact, an analysis of applicable law, and an order of action. Final orders resulting in a finding of a law violation are disciplinary.

Medical Practice Act: ORS Chapter 677. This chapter of Oregon law, which is administered by the Board, gives the Board authority to regulate the practice of medicine in Oregon, including authority to investigate and discipline licensee conduct.

Stipulated Order: An agreement between the Board and a licensee which concludes a disciplinary investigation. The licensee admits to a violation of the Medical Practice Act, and the order imposes actions the Board and licensee agree are appropriate. Stipulated orders are disciplinary actions.

Voluntary Limitation: An agreement between the Board and a licensee which imposes a limitation on the licensee's right to practice medicine. These orders are utilized in a variety of circumstances such as concluding an investigation of licensee conduct, finalizing a request for licensure or resolving an administrative request. These orders may or may not be disciplinary, depending on how they are constructed and the circumstances in which they are used.

OREGON BOARD OF MEDICAL EXAMINERS

INFORMATION REGARDING LICENSE STANDING

Licensure Standing Definitions

The most serious event is shown under the Standing. For example, if a licensee had prior disciplinary actions and is currently revoked, the standing will be shown as "Revoked." Similarly, "Public Order on File" does not deny a Prior Action, previous Suspension, etc.

Summaries of recent actions are available on the [Board Actions](#) page. A full copy of a legal order related to Revoked, Suspended, Surrendered, Public Order on File, Pending, or Prior Action standing may be obtained by making a written request to the OBME and including a \$10.00 fee for each licensee.

Revoked: The Board of Medical Examiners has taken disciplinary action by revoking a licensee's right to practice. In order to resume practice, the licensee must reapply for, and be granted, a license by the Board.

Suspended: A licensee has temporarily lost the right to practice. This may be for a specific period or indefinitely.

Surrendered: When used in the context of a licensee's standing, surrendered means a licensee has given up the right to practice in lieu of disciplinary action.

Restricted (obsolete): This term is no longer used.

Pending Action: The licensee has been formally notified that the Board has found evidence to support a violation of the Medical Practices Act and proposes to take disciplinary action. This is not itself a disciplinary action.

Public Order on File: The Board of Medical Examiners has taken action that has resulted in a Public Order, which relates to the licensee's right to practice.

Prior Action: Same as unrestricted except that the licensee has had prior action taken against their license, but that action is no longer in effect.

Unrestricted: The licensee has no restrictions on the ability to practice.

BEFORE THE
BOARD OF MEDICAL EXAMINERS
STATE OF OREGON

In the Matter of:

JAYANT MUKUNDRAY PATEL, MD
LICENSE NO. MD15991

COMPLAINT AND NOTICE OF
PROPOSED DISCIPLINARY ACTION

1.

The Board of Medical Examiners (Board) is the state agency responsible for licensing, regulating and disciplining certain health care providers, including physicians, in the State of Oregon. Jayant Mukundray Patel, MD (Licensee) is a licensed physician in the State of Oregon.

2.

The Board proposes to take disciplinary action pursuant to ORS 677.205 against Licensee for violations of the Medical Practices Act, to wit ORS 677.190(1)(a) unprofessional or dishonorable conduct as defined in ORS 188(4)(a) and ORS 677.190(14) gross or repeated acts of negligence in the practice of medicine.

3.

The Board has been informed that Kaiser Foundation limited Licensee's surgical privileges so that he cannot operate on any patients with respect to their pancreas, resection of the liver, or construction of ileoanal pouches. The Board's subsequent investigation revealed acts and conduct alleged to violate the Medical Practices Act, as follows:

3.1 Patient A, a 59-year-old male, presented with abdominal pain and symptoms of an incarcerated umbilical hernia in August 1997. Licensee took Patient A to surgery on or about August 12, 1997, and performed an abdominal exploration through a midline incision. Licensee proceeded to perform a segmental resection of the colon. Patient A experienced postoperative complications, to include dehiscence of the wound and distension of the abdomen. He never

1 regained gastrointestinal function. Subsequent medical tests revealed that Licensee had
2 performed the colostomy backwards; Licensee created the colostomy with the distal segment of
3 the sigmoid colon. Patient A underwent another operation on August 26, 1997 to correct the
4 colostomy.

5 3.2 Patient B, an 83-year-old female, presented to Licensee with a 10-cm mass in the
6 pancreatic tail, weight loss and early satiety. She had a history of coronary artery disease,
7 hypertension, congestive heart failure and an infrarenal abdominal aortic aneurysm. Licensee
8 performed a distal pancreatectomy on Patient B on or about November 18, 1996. The mass was
9 found to invade the transverse mesentery and therefore, a right hemicolectomy was performed
10 concurrently. Patient B was hypotensive postoperatively and did not respond to transfusions.
11 She was returned to surgery 14 hours later. She was found to have one liter of blood in her
12 abdomen, with acute ischemia and necrosis of the left colon. Licensee resected the left colon.
13 She deteriorated postoperatively and expired on November 25, 1996.

14 3.3 Patient C, a 65-year-old man, presented with obstructive jaundice and a past
15 history of gallstones, pancreatitis and chronic pancreatic insufficiency. A CT scan showed a 7cm
16 multicystic mass in the head of the pancreas. An ERCP showed an ampullary mass consistent
17 with carcinoma. On November 9, 1994, Licensee performed a Whipple's
18 pancreaticoduodenectomy on Patient B. The pathology confirmed metastases in one of the
19 periportal nodes. Patient C was brought to the Intensive Care Unit (ICU) where he was noted to
20 be hypotensive. He did not respond to treatment and was returned to surgery on November 10th,
21 where approximately seven liters of blood clot was found in the abdomen. Patient B had diffuse
22 oozing of blood, which required suture ligation and argon coagulator for control. He was
23 returned to the ICU where he experienced additional complications and expired later that day.

24 3.4 Patient D, a 67-year-old male, was admitted on or about September 8, 1997 for
25 hepatic resection. Diagnosed in February 1995 with a hepatocellular carcinoma, Patient D had
26 previously been treated with chemoembolization, which decreased the size of the mass. A CT

1 scan showed the mass to be in the medial segment of the left lobe. Exploration revealed that the
2 left hepatic artery was thrombosed. On September 8th, Licensee conducted a left hepatic
3 lobectomy, but during this procedure, it was noted that the right lobe of the liver had been
4 devascularized. Licensee decided to perform a right hepatic trisegmentectomy. Patient D was
5 brought to the ICU after surgery, where he developed coagulopathy and significant bleeding.
6 Patient D did not respond to treatment. He was returned to surgery, where 1900 cc's of blood
7 were found in his abdomen. Perihepatic packing was performed. Patient D was returned to the
8 ICU, where he continued to experience internal bleeding and other complications. He expired
9 early the next morning.

10 4.

11 Licensee is entitled to a hearing as provided by the Administrative Procedures Act
12 (chapter 183), Oregon Revised Statutes. Licensee may be represented by counsel at the hearing.
13 If Licensee desires a hearing, the Board must receive Licensee's written request for hearing
14 within twenty-one (21) days of the mailing of this Notice to Licensee. Upon receipt of a request
15 for a hearing, the Board will notify Licensee of the time and place of the hearing.

16 5.

17 If Licensee requests a hearing, Licensee will be given information on the procedures,
18 right of representation, and other rights of parties relating to the conduct of the hearing as
19 required under ORS 183.413(2) before commencement of the hearing.

20 6.

21 Failure to request a hearing or failure to appear at any hearing scheduled by the Board
22 will constitute waiver of the right to a contested case hearing and will result in a default order by
23 the Board, including the assessment of such penalty and costs as the Board deems appropriate
24 under ORS 677.205. If a default order is issued, the record of the proceeding to date, including
25 Licensee's file with the Board and any information on the subject of the contested case

26

1 automatically becomes part of the contested case record for the purpose of proving a prima facie
2 case. ORS 183.415(7).

SURRENDER

ORDER

BPMC No. 01-117

JAYANT M. PATEL, M.D., says:

On or about May 23, 1980, I was licensed to practice medicine as a physician in the State of New York having been issued License No. 142170 by the New York State Education Department. I currently reside at 3739 Northwest Bluegrass Place, Portland, OR 97229.

I am not currently registered with the New York State Education Department to practice as a physician in the State of New York.

I understand that the New York State Board for Professional Medical Conduct has charged me with two (2) specifications of professional misconduct as set forth in the Statement of Charges, annexed hereto, made a part hereof, and marked as Exhibit "A."

I am, applying to the State Board for Professional Medical Conduct for an agreement to allow me to surrender my license as a physician in the State of New York and request that the Board issue this Surrender Order.

I, hereby, agree not to contest the two (2) specifications set forth in the Statement of Charges (Exhibit A).

I understand that, in the event that this proposed agreement is not granted by the State Board for Professional Medical Conduct, nothing contained herein shall be binding upon me or construed to be an admission of any act of misconduct alleged or charged against me, such proposed agreement shall not be used against me in any way, and shall be kept in strict confidence during the pendency of the professional misconduct disciplinary proceeding; and

such denial by the State Board for Professional Medical Conduct shall be made without prejudice to the continuance of any disciplinary proceeding and the final determination by a Committee on Professional Medical Conduct pursuant to the provisions of the Public Health Law.

I agree that, in the event the Board grants my Application, as set forth herein, an order of the Chairperson of the Board shall be issued in accordance with same upon issuance by the Board, which may be accomplished by mailing, by first class mail, a copy of the Order to me at the address set forth above, or to my attorney, or upon transmission via facsimile to me or my attorney, whichever is first.

I am making this agreement of my own free will and accord and not under duress, compulsion, or restraint of any kind of manner.

STATEMENT
OF
CHARGES

JAYANT M. PATEL, M.D., the Respondent, was authorized to practice medicine in New York state on May 23, 1980, by the issuance of license number 142170 by the New York State Education Department.

FACTUAL ALLEGATIONS

A. On or about September 7, 2000, the Board of Medical Examiners, State of Oregon (hereinafter "Oregon Board"), by a Stipulated Order (hereinafter "Oregon Order"), limited Respondent's license to exclude surgeries involving the pancreas, any resection of the liver, and any constructions of ileoanal pouches, and required Respondent to obtain a second opinion on complicated surgical cases, based on gross negligence and negligence on more than one occasion.

B. The conduct resulting in the Oregon Board disciplinary action against Respondent would constitute misconduct under the laws of New York state, pursuant to the following sections of New York state Law:

1. New York Education Law §6530(3) (negligence on more than one occasion);
and/or
2. New York Education Law §6530(4) (gross negligence).

SPECIFICATIONS
FIRST SPECIFICATION

Respondent violated New York Education Law §6530(9)(b) by having been found guilty of improper professional practice or professional misconduct by a duly authorized professional disciplinary agency of another state where the conduct upon which the finding was based would, if committed in New York state, constitute professional misconduct under the laws of New York state, in that Petitioner charges:

1. The facts in paragraphs A and/or B.

SECOND SPECIFICATION

Respondent violated New York Education Law §6530(9)(d) by having had disciplinary action taken after a disciplinary action was instituted by a duly authorized professional disciplinary agency of another state, where the conduct resulting in the disciplinary action would, if committed in New York state, constitute professional misconduct under the laws New York state, in that Petitioner charges:

2. The facts in paragraphs A and/or B.

Overview

This online search, a service of the State Education Department, permits the public to obtain vital information on the records of more than 1,000,000 licensees in the 44 professions regulated by the Department, including the more than 650,000 who are currently registered to practice within the State. The most important function of professional regulation is to protect the public; this information will help inform people about the licensed professionals who offer services in New York.

Information includes the licensee's name, profession, license number, location, date of original license, and registration status. You may also search [summaries](#) of Regents actions on professional discipline, beginning with cases from January 1994, to see if the licensee has been the subject of disciplinary proceedings.

(NOTE: The disciplinary information for physicians, physician assistants and special assistants is available on the Department of Health's Office of Professional Medical Conduct's homepage (<http://www.health.state.ny.us/nysdoh/opmc/main.htm>). Although the State Education Department licenses these professions, the Health Department has the responsibility for discipline.)

Searching by Name

- Select a profession from the list. You may only choose one profession at a time. Use the arrows to the right of the box to scroll through the list of professions, then click on the desired profession to highlight/select it.
- Enter at least one letter of a last name; you do not need to enter the complete name, although your search will be more precise the more complete the name. You may only search for one name at a time. Enter last name and a space, **not** a comma, then first name. The name may be entered in either upper or lower case.
- Click on the "Search" button to begin your search.
- The screen will display a list starting with a name which best matches the sequence of letters you entered. Scroll through the list to locate the licensee whose record you seek, then click on the license number to view that record.

Searching by License Number

- Select a profession from the list. You may only choose one profession at a time. Use the arrows to the right of the box to scroll through the list of professions, then click

- on desired profession to highlight/select it.
- When searching by license number, you must enter a full six-digit license number. [Note: some RN licenses issued in the 1950s begin with the letters 'B' or 'I' followed by five digits; all other license numbers have six digits.] If a license number has fewer than six digits, insert enough zeros in front of the number to total six digits. If the number includes a dash followed by a single digit (e.g., 000456-1), disregard the dash and the number which follows it. A licensee should be able to provide you with his or her license number upon request.
 - Click on the "Search" button to begin your search.
 - The screen will display the record of the individual who has been issued the license number you have entered for the profession you selected.

Frequent Problems

- Be sure you select the correct profession. Please note the clarifications below:
 - *Medicine and Osteopathy* - Physicians, including MDs, DOs, and those who may have an equivalent degree from another country.
 - *Three-year limited license* - Licensees who do not meet the citizenship requirement and whose practice is limited to 3 years, sometimes in a specific underserved area.
 - *Nurse Practitioner* - A registered nurse with advanced education in a specialty. All nurse practitioners must also be licensed and registered to practice as registered professional nurses.
 - *Public Accountant* - Authorized to practice public accountancy as are Certified Public Accountants (CPAs). Licensees in this profession qualified solely on the basis of experience for a limited period in the late 1950s and early 1960s.
 - Be sure to enter and spell the name correctly: last name followed by a space and first name (do **not** use a comma to separate names). If you are uncertain of the full spelling, try entering only the first few letters of the last name to display all names within the selected profession that begin with the letters entered. Then scroll through the list to find the individual you seek.
 - Names beginning with *Mc*, *O'* and similarly-structured names may appear on the list with or without the apostrophe or the space. Therefore, if you are looking for someone named *O'Neil*, you should also check *O Neil* and *ONeil*.
 - **Printing:** Although Netscape 4.x should render pages correctly onscreen, the combination of that browser, the stylesheet used for this site, and certain older model Hewlett-Packard printers will effectively prevent the content of pages from printing. The simplest solution is to change settings in Netscape: on the menu bar, choose Edit/Preferences; select Advanced in the left column, then *uncheck* the box labeled "Enable style sheets" in the righthand section of the page.

Glossary of Terms

- **Name:** Last name is always displayed first.
- **Address:** City and state of the professional's address are provided as an aid in identifying the individual. A licensee need not have a New York address to be authorized to practice in the State.
- **Profession:** The name of the profession.
- **License/Registration No:** The unique number of this licensee or entity *within* a particular profession. The same sequence of numbers may be held by others, but *only* in other professions.

- **Date of Licensure:** The date the individual was licensed in New York. This date may be missing for licenses issued prior to the mid-1980s (see note below).
- **Additional Qualification:** Some professions provide for an additional qualification, or privilege, which is voluntary and may be obtained either at the time of licensure or subsequently. For example, midwives and nurse practitioners may qualify to write prescriptions after presenting evidence of specified education in pharmacology; social workers may earn insurance reimbursement privileges after either three or six years of qualifying experience. These additional qualifications *do not* include practice specialties, such as surgery or ophthalmology for physicians. In professions where there are no additional qualifications, the phrase *Not applicable in this profession* appears. In professions where there is an additional qualification but the individual has not met the requirements, this line is left blank, but this should not be viewed as limiting the licensee's regular practice.
- **Status:**
 - **Individuals:** To practice within New York State, a professional must be licensed and REGISTERED. When a professional informs the Department, either at the time of reregistration or at any time during their current registration period, that he or she will not be practicing in New York, the record is marked INACTIVE. If a registration has lapsed without explanation, the record is marked NOT REGISTERED. If the Department has received reliable notice of the death of a licensee, that record is marked DECEASED. If the license is currently suspended, revoked, or has been surrendered pursuant to disciplinary action, the record is marked LICENSE SUSPENDED, LICENSE REVOKED, or LICENSE SURRENDERED.
 - **Pharmacy Establishments:** Active establishments are currently doing business in New York State. Inactive establishments include those where there has been a transfer of ownership or those that have discontinued doing business in the State.
- **Registered through:**
 - **Individuals:** Registration periods expire on the last day of the month indicated. Physicians are registered for two-year periods, all other professions for three-year periods. Each licensee's registration period is based on his or her month of birth.
 - **Pharmacy Establishments:** All pharmacies, manufacturers and wholesalers are registered for three-year periods.
- **Pharmacy Establishment Types:**
 - **Pharmacy** means any registered place where drugs are dispensed and pharmaceutical care is provided.
 - **Manufacturer** means a person or company engaged in the manufacture of drugs or pharmaceutical devices.
 - **Wholesaler or Distributor** means a person or company engaged in wholesale distribution of drugs, including but not limited to manufacturers; repackagers; own-label distributors; private-label distributors; jobbers; brokers; warehouses, including manufacturers' and distributors' warehouses, chain drug warehouses, and wholesale drug warehouses; independent wholesale drug traders; and retail pharmacies that conduct wholesale distribution.

Note on Incomplete Records: The Department computerized licensing in the mid-1980s. Computer records on licenses issued prior to that time may be incomplete because not all data was included in the initial conversion to the computer.
