Kees

I enclose correspondence from Dr Patel re the job in Bundaberg

\*\*\*\*\*

Dear Dr Bethell

Thank you for sending the information about the hospital. It was pleasure talking to you this afternoon. With this letter I show my strong desire to accept the consulting position in Australia. Attached is my CV, which now includes medical education information.

I had good training and experience with the majority aspect of general and pediatric surgery including, laparoscopic procedures, trauma surgery including vascular emergencies. If you need any further information please do not hesitate to contact me. I will away from December 30 to January 5. My availability is very flexible both regarding start time and time of the posting. If the experience is positive by both the parties I would be very much interested on returning on the recurring basis.

Looking forward to hear from you again.

Jay Patel
