Comments [04/04/2003 SUZY] Spoke to Lynn McKean - hospital delighted with Jay, has been appointed director of surgery for the duration, is much better than the prior 2 directors of surgery who were both from queensland, very willing to work hard and uncomplaining, has a hard roster for the next month. Kees has been acting director for last 2 years but new director coming in in two weeks time. applied for job but didn't get it.

One Month Follow-Up with candidate - going well, has been responsible for implementing new theatre protocol, and has established goals and objectives for department. is working on bringing down waitlist going back to 2001. has been awarded a \$2500 increase for directors post (worth about a beer a day, he reckons). he will take 3 weeks vac in Oct as will have pro rata vac allowance. wife coming over late july/early aug for a visit. new director replacing Kees Nydam is Daren Keating - very strict but gets the job done. PHO's in other areas not very good, but surgery PHOs are of a good standard .

Three Month Follow-Up with candidate - waitlist cleared within 6 weeks of arrival, has been approached by Rockhampton to ask if he would like to do locum work in his vacation time and consider moving there at the end of his contract. Jay is not interested. The Director of Surgery has left Rockhampton, so Bundaberg are taking 2 of their medical students as there is no teaching facility there. J will consider his options in October when he goes back to the States on vacation/for a conference. Nephew (qualified in gynaecology) may consider a position in Oz - Jay will ask him to apply via the website
