

'MCZ 7'

For the majority of clinics at most hospitals the waiting time for urgent appointments is minimal. If the time is less than 1 week or cases are referred directly to the consultant for review then record 0 in this column.

Enter the number of weeks until the next available appointment. Where possible ignore one-off spaces resulting from cancellations.

It is acceptable to estimate this figure by multiplying the average number of new cases each week by the number of weeks until the next available new appointment.

If the hospital does not provide a clinic leave the row blank.  
 when the waiting time or number of patients is zero, please use the number '0' in preference to 'nil' or 'no' or leaving the field blank.  
 If the data is unavailable use the abbreviation 'N/A'.

The Organisational Grouping column is to assist the allocation of clinics to the most appropriate Corporate Grouping. It is not essential to match the hospitals clinics exactly to the Organisational Grouping provided they map to an appropriate Corporate Grouping.
