DG

The matter should be referred to CMC as suspected official misconduct. Steve Weston will have Rebecca contact Jill to obtain a copy of the report and prepare a referral.

Michael

There are comments in the above report which in particular relate to Dr Morgan Naidoo which if correct would or could represent official misconduct. The report has been handed over to the Morris Commission of Inquiry and accepted into evidence. Can you check with the CMC whether we need to progress even though the Morris Inquiry will investigate. I am confused how this should progress.

For your advice please.

Steve
