Hi Helen

As you may recall, the Measured Quality Public & 60 Hospital reports (phase 1) were submitted to Cabinet on 11th Nov 2002.

The direction provided by cabinet was:

- a) develop a communication strategy (for public report)
- b) finalise changes (to the public report)

Both a & b are in the final stages of completion

- c) finalise a strategy to manage the dissemination of the info in the 60 hospital reports.

The agreed strategy (with sponsors) involves the completion of a further 1 to 2 years data analysis and a round of visits to each HSD executive to highlight the outlier results and commence the process of further inquiry.

I would like to check to see if the Minister and DG would like to submit the Phase 2 Hospital reports to cabinet (as done for the phase 1 reports) prior to our planned visits commencing 31 March 03. If this is the case please let me know as quickly as possible as I will need to co-ordinate with Brad on the dates for submission and depending on how you would like to progress, arrange a time to 'brief' the Minister & DG on the strategy and results for phase 2 (as done for phase 1)?

*been sent to Premier's office again
 at Premier's office??
 check Helen??
 ? e Premier's at the moment.*
