Comments: Re this morning's telephone conversation

Darren to further enable the Medical Board to make a judgement on Dr Qureshi's behaviour, it would be helpful if could supply further information in regard to the complaints.

We are aware of issues in relation to consultations Dr Qureshi had with P13 and P23, but are not aware of any others.

Further details could also include:

- the number of related incidents (including with staff;
- were all of the incidents sexually motivated;
- what internal disciplinary actions being taken by Queensland Health;
- in your view are there "pattern of practice" issues here; and
- are any of the more bizarre behaviours in your opinion due to cultural misunderstandings.

I look forward to your reply
