Dear Dr Keating

**Re: Information received about Dr Tariq Qureshi**

At its meeting of 24 February 2004 the Medical Board of Queensland (the Board) decided that your complaint about Dr Tariq Qureshi would be retained for investigation.

An Investigator will be appointed to investigate the matter. However, there will be some delay before the investigation of your complaint can commence. Due to the number of complaints currently being investigated and the number awaiting investigation, it has become necessary to prioritise complaints to determine which matters will be dealt with immediately and those that will commence when resources become available. At this time it is anticipated that investigation of your complaint will commence within 6 months.

An Investigator will contact you when the investigation of your complaint is due to commence. If you have any concerns about this delay please do not hesitate to contact Miles de Lacey on 3234 1340.

Yours sincerely

Fiona Jackson  
Complaints Co-ordinator
