Hi Darren,

Attached is a report run over the period 1/7/01 to 30/04/04, giving both patient and procedure numbers. The 2003/04 data is year to date only from July to April, and may be slightly higher for the full year. Would insertion of a Tenckhoff catheter always be done on an inpatient basis? I excluded outpatient data from the report as well as Childers and Gin Gin.

Regards,

Kaye Ferrar
